To Whom It May Concern:

We are Darrell and Susan Moore residing at 104 Farmers Lane, Farmdale Subdivision. We would like to express our concern about the proposed sewer rate increase: case # 2006-00028.

We understand a moderate increases may be necessary, however the proposed Monthly Rate and the additional Monthly Surcharge is far beyond what is necessary. The 86.32% Increase is well beyond a standard cost of living rate hike.

Where I work, we only received 2% increase.

We appreciate your efforts in keeping moderately priced utilities for the residents of the Farmdale area.

Respectfully,

Darrell S. Moore

Susan B. Moore
